Attorney Docket No. 81784.0014
Customer No.: 26021

REMARKS/ARGUMENTS

Claims 1-5, 10, 11, 15-17, 19, 20, 24, and 39 were pending in the application. By this amendment, all except claim 24 are being cancelled, and new claims 40-44 are being added, to advance the prosecution of the application. No new matter is involved.

In paragraph 7 on page 7 of the Office Action, claim 24 is allowed. A statement of reasons for the indication of allowable subject matter then follows in paragraph 8 on the same page. Claims 1-5, 10, 11, 15-17, 19, 20, and 39 are rejected. Such claims are being cancelled herein leaving only allowed claim 24 of the claims that were pending. In addition, new claims 40-44 are being added. These claims depend from and add further features to allowed claim 24, so that they also should be allowed.

New claim 40 is similar to cancelled claim 3 except that the recitation "an orientation divider" is changed to read "an orientation control window". New claim 41 recites features similar to those recited in cancelled claim 10. New claim 42 sets forth a feature in accordance with the invention which is shown by Fig. 7 and the corresponding description thereof in the specification. New claim 43 adds features in accordance with the present invention which are disclosed by Figs. 7 and 9 and the description in the specification which corresponds thereto. New claim 44 sets forth a feature in accordance with the invention which is described in lines 18 and 19 of page 19 of the specification.

In conclusion, claims 24 and 40-44 remain in the application. Claim 24 has been allowed, and claims 40-44 depend from and add further limitations to allowed claim 24, so that such claims should also be allowable. Therefore, reconsideration and allowance are respectfully requested.
